

Dear Friends,

Greetings from [Mera Gaon Meri Dunia](#) (MGMD)

How are you?

*"Being brittle and hard is easy;*

*It takes courage to be kind.*

*Being stingy and selfish comes naturally to the weak;*

*It takes strength to be compassionate.*

*Holding on to the self is not wisdom;*

*It takes faith to let go.*

*Doubts and fear are greed for benefit;*

*It takes giving to be happy."*

Sharing a poem written by **Rev. Heng Sure**; which reminds us of our innate strengths with which we can serve and survive humanity as a whole. The last one month was something which shaken us from head-to-toe in all the terms; a lot of people lost their dear ones and many survived with countless helping hands. We want to express our heartfelt gratitude to YOU & everyone involved in this journey! We invite you to look at our journey of the last month.

Here we present **SAMVAAD with MGMD**, where we share our journey about *Mera Gaon Meri Dunia*.

## Stories from the Relief Ground!

### **SUPPLY OF SAFETY KIT & OXYGEN IN 10 VILLAGES**

During the wake of the COVID-19 pandemic across the nation. We were linked directly with our rural communities where the pandemic brought countless challenges for people. We distributed **Safety-Kits** to frontline corona warriors which include *Masks, Sanitizers, Oximeters, and Temperature Guns*. Our primary focus was on Aanganwadi workers, ASHA workers, and village volunteers to boost their resource bank to fight against corona in the **10 villages of Ratlam and Ujjain districts**.

Along with these materials we also ensured the supply of **Oxygen Cylinders** for covid patients and hospitals in **03 villages** of our region.

### **SUPPLY OF FRUITS & SANITARY PADS IN 06 COVID CENTERS**

*When two of our co-founders were tested positive for COVID-19 and were in isolation at our office, an uncle wrote a get well soon note and sent fruits to them.* The essence of action was the key that inspired us to repeat. We started purchasing fruits directly from the farmers who were unable to sell them and with the help of our volunteers and local administration, we distributed **fruits to 6 Government Covid Care Centers** in nearby towns and to **families of people who were living in home isolation** due to contentment restrictions.

We also ensured the availability of **Sanitary Napkins** in **06 Covid Care Centers and Home Isolated Families**.

## **SURVEY FOR IDENTIFICATION OF EARLY COVID SYMPTOMS**

With the help of volunteers, we surveyed **30000+ homes in the villages of Ratlam and Ujjain districts of MP** to *identify COVID-related symptoms to ensure early detection to procure required treatment for the people*. While surveying we get to know about home-isolated covid patients in the villages; within our capacity, we provided them *Oximeters and Thermometers for home-based check-ups* in **09 villages** of our region.

In this survey and outreach, *people of these villages, Volunteers, and the Administration of Alot, Nagda & Mahidpur block* showed their unending will to work with us in this pandemic, to which we feel immensely grateful.

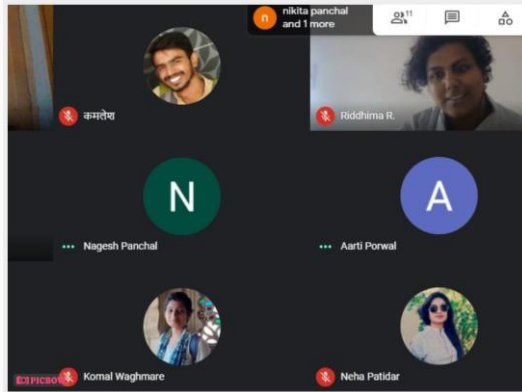

## **DREAM A DREAM - AIMING TO DISTRIBUTE PADS IN 50 VILLAGES**

Amid this pandemic when the most part of the population is locked in their households only. The worse affected section is the females living in rural areas where the supply of essentials becomes less frequent. With the help of local volunteers, NGOs and administration *we dreamt of distributing Sanitary Pads to 50 villages of Malwa Region through providing necessary resources to Aanganwadi & ASHA Workers of the villages*.

On **World Menstrual Hygiene Day**, we begin the drive for *awareness on Menstrual Health and distribution of Sanitary Pads* in **11 villages of the Ujjain and Ratlam districts** of MP.

## On-Going Journeys' Glimpse!

### SEEKHEIN SIKHAYEIN: MAY EDITION

In the **edition of May**, our fellows shared *the conditions of their communities due to COVID outrage and explored the ways through which they can contribute to the relief works when the rest of the things are witnessing a halt*. Many of the fellows came forward to volunteer for communities and MGMD is extending the necessary resources and support for relief work to them.

In our monthly learning circle “**Sikhein Sikhaayein**” fellows come together to share their learnings and challenges they are having while working. [Mission Malwa](#) is a collaborative venture of **Plustrust & MGMD**.

### DIVING DEEPER TO KNOW MORE ABOUT RURAL REALITIES!

Yogesh Parmar, the founder of [Game Changers](#) - *which aims to build people's capability and eco-systems that enable sustained excellence*, and Ruchika started **A Live Video Series** to understand more deeply about the *COVID situation in rural and remote areas of Madhya Pradesh*.

Our core team member Nageshwar Panchal was invited to share his views and the realities which are being created as the impact of COVID in rural India.

**You can watch the complete discussion among the founders and other guests [here](#).**

### SHARING REALITIES FROM RURAL GROUNDS

Our core team members **Vasudha** and **Pawan** shared space with Abhishek and Aarti from Study Labs, during a *24-long Livestream fundraising event for mobilizing funds for covid relief in the villages of Bihar and UP*. They shared the stories from the ground they were witnessing while doing relief work in rural Madhya Pradesh and shed light on the underlying key factors and challenges of working amid the crisis. Our team members also shared the strategic aspects of working in rural areas on relief and other related things at this point in time.

*The Study Labs was able to raise more than INR 1.1 lakh through their 24 hours Livestream on more than 12 topics with many people including H C Verma and other high-profile guests to support the people of rural India.*

### GHAR GHAR PADHAI - DOORSTEPPING SPARSH

With more than a year of school lockdown, children in the rural areas have been out of touch with educational experiences. Keeping in mind their limited technological access, MGMD is trying to reach out to the children at their homes.

*By delivering contextual learning kits with hands-on activities, and sending across guiding videos made by the local youth, we are hoping that every child feels more engaged.*
